Building Bridges: 
Knowledge is Power 

ASCLS-Idaho 
2023 Spring Conference 
April 27th & 28th
Welcome to the 2023 ASCLS-Idaho Annual Spring Convention

The committee has done a great job of putting together a wonderful program. The theme this year is “Building Bridges: Knowledge is Power”. Please join us for the many opportunities to connect with other medical laboratory scientists, the ISU students and the wonderful vendors that bring you the latest and greatest that they have to offer.

Lisa Platter, ASCLS-ID President

~~~~~~~~~~~~~~~~~~~~~~~~

We are excited to welcome everyone to Twin Falls for our spring meeting this year! We hope attendees can learn something new, rekindle old friendships, and network with other laboratory professionals from around the state to "Build Bridges" of their own.
Our theme this year seems fitting for this endeavor. We hope you find our educational offerings worthwhile and that you spend some downtime having fun with friends, both old and new. We are excited to have the ISU MLS students in attendance and hope they can connect with our established laboratorians to create friendships and learn the ropes. Don't forget to check out all the vendors that have come to showcase their products and make sure to join us Thursday evening for a fun dinner and social event. Everyone is welcome!

As you cross the Perrine Memorial Bridge over the Snake River, be prepared to have a great couple of days with us in Twin Falls!

Heather Gunter, ASCLS-Idaho Spring Convention General Chair

ASCLS-Idaho Board of Directors – 2023

President .................................................. Lisa Platter
President-elect ........................................ Mechelle Reeve
Past President ........................................ Melissa Dumoulin
Secretary .................................................. Debbie Cutforth
Treasurer .................................................. Chris Doran
Administrative Secretary ........................ Debbie Shell
Board Member ........................................ Rachel Hulse
Board Member ........................................ Kate DeAngelo
Special Notes

**PACE® Validation:** ASCLS-Idaho is approved as a provider of continuing education programs. All general sessions and workshops are PACE® approved. Continuing Education credits are now documented electronically by the participant through the ASCLS website using the CE Organizer program at the conclusion of the conference. All attendees will receive a P.A.C.E Documentation Form with instructions when they register at the conference. This form will list all sessions and workshops with the P.A.C.E. number and a space to note the applicable session or workshop number. The session number is a unique number assigned to that session or workshop and will be announced at the end of each session. Attendees will need to write that number down on their P.A.C.E. Documentation Form. Within 30 days after the conclusion of the conference, attendees must log on to the CE Organizer at the ASCLS website to enter their documentation and print their P.A.C.E certificate. After 30 days, attendees will be unable to enter documentation for this conference or print a P.A.C.E certificate. Attendance rosters and P.A.C.E stickers will not be used at this conference. Retain the completed P.A.C.E Documentation Form along with the P.A.C.E. certificate for your permanent record.

**ADA Statement:** ASCLS-Idaho is committed to inclusion and universal access to all its programs. We will make every effort to provide reasonable accommodations to individuals with disabilities. If you have a disability that requires special accommodations, please contact Heather Gunter at (208) 241-0114 by April 8, 2023.

~~~~~~~~~~~~~~

**ASCLS Membership**

**Becoming an ASCLS-Idaho Member:** ASCLS-Idaho is the Idaho branch of the American Society for Clinical Laboratory Science. When you join, you become a member of both organizations. Your membership demonstrates your commitment to supporting and advancing your chosen profession. ASCLS and ASCLS-Idaho provide
you with connections to other clinical laboratory professionals that can prove invaluable in your career. In addition, ASCLS maintains a professional lobbyist in Washington D.C. who monitors legislations that may affect our profession and actively works to represent our views and needs.

**Professional:** $126 ($112 to renew) + $20 State dues. Open to all persons certified or engaged in the practice and/or education process of clinical laboratory science, including those with an active interest in supporting the purposes and goals of this society. Includes all membership privileges, discounts to continuing education events, and subscriptions to the award-winning bi-monthly journal *Clinical Laboratory Science*, and the ASCLS-Idaho newsletter *Focus*.

**Ascending Professional:** $70 ($56 to renew) + $10 State dues - Ascending Professional membership is open to any individual eligible for Professional membership, if the individual has not held previous membership other than Developing Professional or Ascending Professional membership in this Society and is within five years of graduation from a program of clinical laboratory studies.

**Developing Professional:** $28 + $5 State dues. Developing Professional membership shall be open to any person enrolled in a program of clinical laboratory studies.

**Emeritus:** $28 + $5 State dues. Open to any an individual who has been a professional member of ASCLS and whose age and years of continuous professional membership are equal to or greater than 90. If you think you qualify, please email ascls@ascls.org.

**Community:** $82 to join ($68 to renew) + $10 State dues. Community membership shall be open to all persons. Community membership is **NOT eligible** for member discounts for live ASCLS national events and does **NOT count** towards continuous professional membership in the society, which is used for eligibility of emeritus membership status. Community members cannot hold office or vote in ASCLS elections.
General Convention Information

Exhibits

Thursday, April 27
Lunch with the Vendors .......................... 12:30 pm-2:00 pm
Appetizers with the Vendors .................... 3:00 pm-5:00 pm

Friday, April 28
Lunch with the Vendors .......................... 12:45 pm-2:00 pm

Social Functions

Thursday, April 27
Social Dinner Gathering ............................. 5:00 pm-7:00 pm
Enjoy some Jazz and food while we socialize with our peers.

Business Meeting

Friday, April 28
Business Meeting and Awards ...................... 10:15 am-11:45 am
## ASCLS-Idaho 2023 Convention At-A-Glance

Thursday, April 27 Workshops

8:30 am-9:30 am
Opening Session G1 – “Unburdening a Burdened System”
Bobby Shahideh MD, MBA

We will discuss the use of novel brain biomarkers to address unmet needs in the U.S healthcare system.
Sponsor: Abbott Diagnostics

9:45 am-10:45 am
Keynote Session G2 – “Unconscious Bias and Me”
Derrick Nelson MBA, MA HR, SPHR, SHRM-SCP, CDE

This session aims to raise awareness and understanding of unconscious biases that can impact decision-making, hiring, and workplace interactions. Attendees will learn strategies to identify and overcome these biases and promote inclusivity and diversity in the workplace.

11:00 am-12:30 pm
Break Out Session A1
“Procalcitonin-Guided Antibiotic Therapy and Antibiotic Stewardship” and “Assessing the Risk of Acute Kidney Injury (AKI): A Paradigm Shift in Renal Testing”
Karen Shanaberger BSN, RN

Lecture with slides to educate attendees on the clinical utilization of one widely used biomarker immunoassay, Procalcitonin, and one de-novo biomarker, TIMP-2/IGFBP-7, in the management of patients in the ED and acute-care setting to improve patient outcomes and support antimicrobial stewardship initiatives.
Level: Intermediate
Sponsor: bioMerieux
11:00 am-12:30 pm
Break Out Session A2
“Not Just Another Urine Specimen: Interesting Cases & Conundrums”
Jason Anderson MPH, MT(ASCP)

Since ancient times, scientists have been analyzing urine to help diagnose illnesses. While many advances have been made in diagnostic medicine since that time, urinalysis still plays a vital role in patient care. In this presentation, Sysmex Product Manager, Jason Anderson, will review the basics of urinalysis as a reference for the case studies that will be highlighted. The presentation will be followed by a live question and answer session.

Level: Intermediate
Sponsor: Sysmex

11:00 am-12:30 pm
Break Out Session A5
“Shining a Freelite on Monoclonal Gammopathies”
Aigars Brandts PhD

Have you been looking to learn more about monoclonal gammopathies? Get enLITEened with Dr. Brandts on how Freelite results, together with other relevant tests are used to diagnose and monitor monoclonal gammopathies, including multiple myeloma, the third most common hematologic cancer.

Level: Intermediate
Sponsor: The Binding Site

2:00 pm-3:00 pm
Break Out Session A3 – “DAT Overview”
Michelle Mullens MT(ASCP)SI

Direct Antiglobulin Testing review including clinical conditions, testing techniques, role of complement.

Level: Intermediate
Sponsor: QuidelOrtho
Breakout Session A4 – “PCR Testing: Indications Beyond the COVID-19 Pandemic”
Rosemary Clement DNP, PHCNS, APRN

This one-hour class will present the application of PCR technology in various infective disease sites beyond its use during the COVID-19 pandemic. Impact of PCR testing on potential improvements in patient outcomes will be discussed along with the impact PCR testing can have on antimicrobial resistance and antimicrobial stewardship efforts. Students will learn how PCR testing is utilized along with traditional testing methods for infectious diseases.
Level: Intermediate
Sponsor: bioMerieux

Friday, April 28 Workshops

8:00 am-9:00 am
Educator’s Forum
Rachel Hulse Ed.D., M.S., MLS(ASCP)cm

This session will be an informative session about the progress of the MLS program at Idaho State University. Rachel, the director, will share successes of the program in the past year as well as improvement points that she and the faculty are eager to implement.

8:00 am-9:00 am
“Life after Graduation”
Kate DeAngelo MLS(ASCP)cm

This session is geared towards developing and ascending professionals detailing life after graduation. Topics to be discussed include: having successful clinical rotations, taking the BOC (Board of Certification) exam, resources for finding jobs in Idaho, interview skills, landing the job, maintaining CEs (continuing education credits), ASCLS, and Leadership Academy.
Level: Intermediate
9:00 am-10:00 am
General Session G3 -- “Building Bridges through Avoiding Conflict in Communication”
Chérie Petersen BA

Building bridges through avoiding conflict in communication is as simple as deploying a three-part strategy. Participants will have the opportunity to learn strategies to facilitate more satisfying and meaningful outcomes when communicating in situations where there is the potential for conflict.
Level: Basic
Sponsor: ARUP

11:45 am-12:45 pm
Break Out Session B1 – To Be Determined (Check Website)

11:45 am-12:45 pm
Break Out Session B2 – “Microbiology Plate Rounding”
Kent L Evensen

Case studies of Microbiology including workup and identification.
Level: Intermediate

11:45 am-12:45 pm
Break Out Session B3 – To Be Determined (Check Website)

2:00 pm-3:00 pm
Break Out Session B4 – “Solving the Syphilis Testing Puzzle”
David Tomichek MBA, BS, MT(ASCP)

The CDC Syphilis algorithm requires testing by multiple methodologies. This session explores manual, EIA and multiplexing technology to assist in completing the challenge faced by laboratories in choosing which direction to proceed.
Level: Intermediate
Sponsor: Bio-Rad
2:00 pm-3:00 pm  
Break Out Session B5 – “COVID Update”  
Matthew Burns MS

A COVID overview will be presented.  
Level: Basic

2:00 pm-3:00 pm  
Break Out Session B6 – “NTproBNP - Past, Present and Future”  
Alexander L Fohl, PharmD

Discussion of the use of NTproBNP and how it has impacted the treatment and monitoring of Heart Failure and potential future use in Type 2 Diabetes.  
Level: Basic  
Sponsor: Roche

3:15 pm-4:45 pm  
Scientific Assembly / Poster Session  
ISU MLS Students  
The students from this year’s ISU MLS program will be presenting their research projects. Come join them as they share a synopsis of their research findings.

**Speaker Information**

Jason Anderson MPH, MT(ASCP)  
Jason received his B.S. degree in Medical Laboratory Science and Masters of Public Health degree in Epidemiology and Health Administration from the University of Utah. Always looking for new challenges, Jason has enjoyed a variety of roles and experiences in a 25+ year career in the clinical laboratory field. From his first “real” clinical job as the laboratory, radiology and ultrasound technologist in a 12-bed rural hospital in Kansas to managing laboratory sections in large reference and hospital laboratory environments, Jason has been blessed to have the opportunities to develop a broad clinical laboratory skill set which
has served him well to date. Jason has been with Sysmex America for the past eight years, most of which time has been spent in the marketing department as the Senior Product Manager for Urinalysis Solutions.

Aigars Brandts PhD
Aigars is a native of the Republic of Latvia. He received his MS and Ph.D. in Biology from Cornell University. Currently, Aigars is Director of Scientific Affairs at Binding Site, Inc, part of Thermo Fisher Scientific, but has held similar positions at Sebia Electrophoresis and Roche Tissue Diagnostics. He resides in Atlanta, GA.

Matthew Burns MS
Matthew is a genetic engineer turned public health scientist turned project manager who is currently serving the people of Idaho as the State Testing Coordinator at the Bureau of Laboratories. His top priorities in this role are establishing a robust COVID waste water surveillance network and ensuring easy access to testing for vulnerable populations. When off the clock, he volunteers as a board member for the Idaho Immunization Coalition and serves on the Institutional Biosafety Committee for the VA of the Puget Sound and on the Subcommittee on Research Safety for the Boise VA. Matthew is simultaneously enthusiastic about and terrified of the potential of modern biotechnology. He has cared deeply about mitigating catastrophic biological risk (especially from synthetic biology) ever since he accidentally designed a bioweapon system.

Rosemary Clement DNP, PHCNS
Rosemary has been in clinical practice for over 20 years earning her Doctorate in Nursing, Master’s in Public Health, and a certificate in Nursing Education. Her clinical experience in Critical Care, Wound Care, Oncology, Public Health and Academics enhances her role as a Medical Educator with bioMerieux. Rosemary provides clinical consultation and medical education on the BioFire infectious disease panels to physicians and nurses in fields related to infectious diseases; these include Emergency Medicine, Critical Care, Pediatrics, Family Medicine, Quality and Pharmacy.
Rosemary holds her Doctorate in Nursing from The University of Alabama as Clinical Nurse Specialist and a Master’s in Public Health Nursing from the University of North Carolina. As part of the Medical Education team, Rosemary also maintains a certification in Antimicrobial Stewardship from MAD-ID (Making a Difference in Infectious Diseases). She has worked at the local level developing community health care programs, nationally with professional memberships presenting at national congresses and internationally, participating as faculty with the Breast Health Global Initiative. She currently enjoys living in St Helens, Oregon with her husband and two dogs while restoring a 1915 craftsman home that overlooks the Columbia River with views of Mount St Helens and Mount Hood!

**Kate DeAngelo MLS(ASCP)**
Kate is from Boise and attended the MLS program at the Pocatello ISU campus. She graduated in 2016 and completed her internship at the Boise VA Hospital. She works at St. Luke’s Magic Valley Medical Center as a graveyard generalist and has been there for over six years. Kate has been involved with ASCLS since graduation and was awarded the National Ascending Professional award last year and the Idaho Member of the Year award in 2020. She enjoys baking, traveling, and running half marathons.

**Kent Evensen MT/CLS (ASCP)**
Kent is a Medical Microbiologist and Supervisor/Micro specialist at Cassia Hospital, Minidoka Memorial Hospital and North Canyon Medical. He has more than 30 years of experience. He works on the Lab Information Systems Team for Intermountain where he also advises the Micro Practice Council and the Antibiotic Stewardship team. Kent loves what he does because every day is a new adventure full of discovery. Post pandemic times have revealed some very interesting cases. Kent feels at times that he is a detective. He targets organisms/pathogens/parasites, finding their mechanism of resistance and providing the best solutions available to help patients live the healthiest life possible.
Alexander L Fohl PharmD
Alex is the Roche Core Lab and Point of Care scientific liaison for the west region within Medical and Scientific Affairs. He joined Roche Diagnostics in 2017 as a product manager in Marketing focusing on the cardiac portfolio for 4 years. Prior to joining Roche, he was a pharmacist at IU Health Ball Memorial Hospital and Community South Hospital where he precepted students and residents. Alex is a licensed pharmacist who earned his Doctor of Pharmacy degree from Purdue University and completed a two-year pharmacy practice residency in Critical Care from the University of Michigan Hospitals and Health Centers.

Rachel Hulse Ed.D., M.S., MLS(ASCP)℠
Rachel is an Associate Professor and Program Director of the Medical Laboratory Science program at Idaho State University where she teaches Immunology, Molecular Diagnostics, Hemostasis, Phlebotomy, Critical Analysis, and a number of advanced graduate level courses. Dr. Hulse is passionate about education and the MLS profession and was awarded the Kole McGuffy Award in recognition for her outstanding educational and clinical research.

Michelle Mullens MT(ASCP)SI
Michelle graduated from the University of Arkansas for Medical Sciences and worked for 28 years at Baptist Health in Arkansas. Working every shift imaginable, she cross-trained in most areas including Microbiology and Flow Cytometry. She served as student coordinator, senior med tech and supervisor in Blood Bank and Immunology. Michelle passed her Specialist in Immunology exam in 2000. She worked for 11 years as Blood Bank supervisor in a 300 bed satellite hospital that was the first site in Arkansas to automate TM testing and adopt electronic crossmatching. In 2016, she moved to Rochester, New York, to support Ortho Vision in seven states in the Northeast. She currently serves as Clinical Science Liaison for TM in North America.
Derrick Nelson MBA, MA HR, SPHR, SHRM-SCP, CDE
Derrick is the Senior Director of Diversity, Equity, and Inclusion (DEI) at St. Luke's Health System in Boise, Idaho. He manages the creation, development, and execution of DEI strategies, programs, policies, and metrics aimed at advancing diversity, equity, and inclusion in the workforce and creating a psychologically safe and inclusive environment. With over 20 years of HR and DEI leadership experience, Derrick has earned an MBA and a Master of Arts in Human Resources Management from Webster University. He is a graduate of the St. Louis Business Diversity Initiatives Fellows program and the Facilitrainer Certification Program with the National Conference for Community and Justice of Metropolitan St. Louis. He holds the Certified Diversity Executive (CDE)® credentials. Derrick serves on the boards of several non-profit organizations and is an adjunct professor at a university based in Missouri.

Chérie Petersen, BA
Chérie has spent over 25 years developing educational programs and resources specifically designed for laboratory professionals by combining her experience and knowledge of the laboratory industry with her passion for patient-centered care. As the Distance Education Program Coordinator for ARUP Laboratories Institute for Learning she is responsible for developing, managing, and delivering educational opportunities to a broad range of industry professionals. She directs ARUP’s rapidly growing educational website. Chérie’s broad range of experience has been gained through developing multiple business solutions for hospital laboratory outreach programs, managing educational conferences, producing ARUP’s LabMind podcast, and developing web-based educational resources. Through ARUP’s Institute for Learning, Chérie shares her expertise, energy, and passion with ARUP clients and industry professionals using her experience in employee development, training, management coaching, writing, public speaking, customer service, leadership, communication skills, employee engagement, and sales. She works with laboratory organizations and professionals to achieve exceptional outcomes while enhancing their competitive efforts.
Bobby Shahideh MD, MBA
Bobby is a US and UK clinically trained physician and is the U.S. Associate Medical Director for Abbott Core Diagnostics. He is tasked with providing in-depth clinical information and educational programs both internally and externally, while also lending support to new and on-going research studies. Prior to joining Abbott, Bobby spent a vast majority of his professional career providing bi-directional consulting to physicians, healthcare workers, and health systems. He worked with these various global entities to help enhance patient care, clinical operations, access, clinical outcomes, and health economics.

Karen Shanaberger BSN, RN
Karen is a Registered Nurse with 19 years of experience in a variety of settings and specialties focusing on quality improvement and education. As a Medical Education Liaison for bioMerieux, Karen provides clinical consultation and education to hospital staff and other key stakeholders on the implementation and utilization of biomarkers to achieve optimal patient outcomes. Karen holds bachelor’s degrees in biology from The College of William and Mary and in nursing from Virginia Commonwealth University.

David Tomichek MBA, BS, MT(ASCP)
David is the Core Lab Immunochemistry Manager for the Western United States. He has an MBA in Business Administration and a BS in Medical Technology and has spent more than 20 years in the clinical lab. David has worked for BioRad for 25 years. His areas of expertise are Immunology, Serology, Chemistry, Diabetes and Hemoglobin Screening. This is his third time speaking at the ASCLS-Idaho Meeting.
Hotel Information

Be sure to mention ASCLS-Idaho when making your room reservation. Do not delay making your reservation as there are limited numbers of rooms in these blocks.

TownePlace Suites by Marriott Twin Falls
175 Avenida Del Rio Dr, Twin Falls, ID 83301
Phone: (208) 734-8440
Room Rate: $159/night for king (1 bed) and queen (2 bed) rooms
*** all rooms have full kitchens, large refrigerators***
Hot breakfast, complimentary Wi-Fi and Parking is included

Fairfield Inn by Marriott Twin Falls
1788 Washington St N, Twin Falls, ID 83301
Phone: (208) 734-8444
Room Rate: $159
